PATIENT POLICY · AMW-PAT-005

New Patient Registration, Scheduling & Telehealth Policy

Becoming an Amerimed patient, appointments, cancellations and virtual care through Amerimed Anywhere

Document ID	AMW-PAT-005	**Version**	2.4
Effective date	2026-05-01	**Next review**	2027-05-01
Policy owner	Patient Access Services	**Approved by**	Dr. Aisha Rahman, Chief Medical Officer
Applies to	Primary care, specialty clinics, urgent care and telehealth services	**Classification**	Public

1. Registering as a new patient

Register online through **MyAmerimed** (web or app), by phone at 1-888-555-0123, or in person at any clinic.

What to bring or upload

- Photo ID (driver's licence, state ID, passport, consular ID, or school ID for minors). *ID is not required to receive emergency care.*
- Insurance card(s) - front and back
- List of current medications, allergies and immunisations
- Name of your previous primary care provider (we will request records with your authorisation)
- Advance directive or POLST, if you have one
- Legal documents for minors in guardianship or foster care

Minors

Patients under 18 need consent from a parent or legal guardian, **except** for services that minors may consent to under state law. In California these include sensitive services such as reproductive health, mental health (age 12+), substance use treatment and STI care. Oregon and Washington have their own minor-consent rules (e.g. Oregon age 15+ for most medical care).

2. Insurance verification

- Eligibility and benefits are verified electronically 3 days before scheduled visits.

- If coverage cannot be verified, you will be offered self-pay rates, a Good Faith Estimate, and screening for financial assistance or coverage programmes.
- **Referrals:** HMO plans may require a referral from your primary care physician. Our referral coordinators manage this for in-network specialists.

3. Scheduling and access standards

Visit type	Amerimed target	Regulatory standard (CA DMHC, for reference)
Urgent care (no prior authorisation)	Same day / walk-in	Within 48 hours
Non-urgent primary care	Within 7 business days	Within 10 business days
Non-urgent specialist	Within 10 business days	Within 15 business days
Non-urgent mental health (non-physician)	Within 7 business days	Within 10 business days
Mental health follow-up	Within 10 business days	Within 10 business days

4. Cancellations, late arrivals and no-shows

- Please cancel at least **24 hours** ahead through MyAmerimed or by phone.
- Patients who arrive more than **15 minutes late** may be asked to reschedule, or offered a telehealth visit.
- After **3 no-shows in 12 months**, scheduling may be limited to same-day appointments. We never dismiss patients for no-shows without outreach and a review of barriers (transport, language, health-related social needs).
- Amerimed does **not** charge no-show fees to Medi-Cal, Oregon Health Plan or Apple Health members.
- **Free rides:** Medi-Cal and OHP members can request non-emergency medical transport. Amerimed Ride Assist covers other patients facing transport barriers.

5. Amerimed Anywhere - telehealth

5.1 Services available

Video and phone visits for primary care, urgent care (24/7 on-demand), behavioral health, dermatology (photo upload), chronic disease management, post-surgical follow-up, lactation support and remote patient monitoring.

5.2 Eligibility and licensure

- The patient must be **physically located in a state where the clinician is licensed** at the time of the visit (CA, OR, WA or NV). Clinicians confirm your location at the start of each visit.
- Prescribing controlled substances by telehealth follows the DEA telemedicine rules in effect, and state law.
- A telehealth visit may be converted to an in-person visit if clinically needed, at no extra charge for the telehealth portion.

5.3 Consent

Before your first telehealth visit you give verbal or written consent, as required by **California Business & Professions Code 2290.5**. Consent is recorded in your chart. You may choose in-person care at any time.

5.4 Privacy and technology

- Video visits use a HIPAA-compliant platform with end-to-end encryption, through MyAmerimed. No downloads are needed.
- Please join from a private location. Interpreters and family members can be added to the call.
- If the connection drops, your clinician will call you on your phone number on file.

5.5 Cost

Telehealth is billed to insurance like an in-person visit. **Payment parity** applies under California AB 457 and Oregon/Washington telehealth laws. On-demand urgent video visits for self-pay patients cost **USD 59**.

6. Patient portal - MyAmerimed

- View test results (released automatically under the federal 21st Century Cures Act information-blocking rules, with optional clinician-review delays for sensitive results in line with state law), message your care team, request refills, pay bills and download records.
- **Proxy access:** parents of children under 12 have full access. For ages 12-17, access is limited to protect confidential services. Adults can grant proxy access to caregivers.
- Non-urgent messages are answered within **2 business days**. **Never use the portal for emergencies - call 911.**

Amerimed Wellness Institute is a fictional healthcare organisation created for AI training and demonstration. It does not provide medical care. All names, facilities, addresses and identifiers are invented. Nothing in this document is medical or legal advice.
