1. Overview

OceanX invoices through the local group entity in the country where freight or charges are payable. Each entity collects in the local currency where regulations require it, and in USD for international ocean freight where permitted. Every invoice shows the invoicing entity, tax registration number, Bill of Lading (B/L) number, booking number, currency and due date.

2. Invoicing rules

- **Freight invoices** are issued on vessel departure for prepaid freight, and on vessel arrival for collect freight.
- **Local charges** (terminal handling, documentation, delivery order fees) are invoiced by the origin or destination office.
- **Demurrage and detention** are invoiced when the container is returned (see OX-CUS-005).
- E-invoices are delivered through OX Navigator and by email. Paper invoices are available on request for USD 15 per invoice.
